

BIOFA NATOLE Sanitary Cleaner Article No. 4060

Properties

NATOLE sanitary cleaner is a cleaning concentrate from natural raw materials for all bath, kitchen, and toilet applications. Dirt, lime, and urine scale is loosened and cleaned in a gentle and environmentally friendly manner from tiles, sinks, tubs, WC bowls, urinals, fixtures, etc, and results in a natural, fresh-smelling cleanliness. NATOLE is biodegradable.

Ingredients

Water, citric acid, formic acid, ethanol, <5% anionic and amphoteric tenside from coconut fat, polysaccharide/starch, peppermint oil, citral, chlorophyll.

Application

Use nozzle to spray onto surfaces to be cleaned, primarily also in niches and under sink rims, etc., then distribute with brush or sponge, allow to soak, then rinse off with plenty of water.

The cleaned surface can also be polished dry to avoid water stains or spots, e.g. on chrome-plated surfaces.

Storage

Keep cool, away from frost, dry and properly sealed.

Container

500 ml PE container

Hazard warnings

Attention

Causes serious eye irritation. Contains peppermint oil. Can cause allergic reactions.

Safety instructions

Keep away from children. Read label before use. Clean hands thoroughly after using product. Wear safety gloves/eye protection.. WHEN INGESTED: Immediately call POISON INFORMATION CENTER or get medical help. ON EYE CONTACT: Gently rinse with water for several minutes. Remove contact lenses when possible. Continue rinsing. If eye irritation persists: Get medical advice/medical help. Keep packaging or product label if medical help is needed.

Disposal

Use up product completely whenever possible. Dispose liquid product leftovers and partially full and cleaned containers in compliance with local statutory regulations. Only recycle fully emptied and cleaned containers.

German Waste Classification Directive [Abfallverzeichnis Verordnung - AVV] waste code 17.01.01. European waste classification: 20 01 29*

GIS CODE: GS 60
